

LANDING

Space to settle in and feel at home.

The Landing offers generous living space designed for both comfort and flexibility. A welcoming foyer leads into the home, where separate living and family rooms create room to gather, relax, or entertain. The kitchen features a large walk-in pantry and opens to the dining and family spaces, while an optional wet bar adds a thoughtful touch for hosting. The private primary suite includes a walk-in closet, separate tub and shower, and a dedicated water closet for added comfort. Two additional bedrooms, each with access to their own full bath, and a versatile flex room provide space that easily adapts to your lifestyle. With three full bathrooms, multiple living areas, and flexible space, the Landing also works well for households that include extended family or multi-generational living. A rear covered porch extends the living space outdoors, while the contemporary architectural design gives this version of the Landing a distinctive modern look.
