

WOODLAND

Comfortable living inspired by nature.

The Woodland combines inviting design with a layout that feels open and easy to live in. A welcoming front porch and distinctive roofline give the home a warm, character-filled exterior. Inside, the kitchen anchors the main living space with a large island that naturally becomes the center for cooking, conversation, and gathering. The primary suite includes a spacious walk-in closet, while two additional bedrooms offer generous space—one featuring its own walk-in closet for added storage. With thoughtful details and a bright central living area, the Woodland creates a home that feels both comfortable and connected.
